## Skills

Java (Spring Boot)

Python (Django)

JavaScript (React, Node)

Andriod Jetpack Compose

C# (.NET, WPF)

C/C++

SQL

Git

## Volunteering

**AIBG Topic team member**
BEST Novi Sad, 2021 - 2022

**The Engine so advanced it's Unreal - Academic responsible**
BEST Novi Sad, 2022

## Languages

Serbian - native

English - B2

German - A1

## About Me

Dynamic and hardworking student of Software engineering with desire to learn and improve in different IT fields. What I have experienced so far are various individual and team projects including both web and desktop apps using algorithms and optimization.

## Educational

- Faculty of Technical Sciences
  2019 - present
  **Software engineering and information technology**
  - Scholarship for exceptionally gifted students
- Gymnasium Jovan Jovanović Zmaj
  2015 - 2019
  **Special department for mathematics**

## Projects

### Booking App

- Web application for reserving and managing resorts, boats and fishing adventures. App includes Spring Security, sending mails, advanced calendar features, diagrams and many other features. Implemented pessimistic and optimistic locking, caching frequently used data and unit and integration tests.
- Technologies: Spring Boot, React, PostgreSQL, Maven

### Social network

- A Facebook like app with posts, feed, profiles, real time messaging...
- Technologies: jQuery, JAX-RS, sockets

### Daily food recommendation

- A desktop application for suggesting daily amount of food based on personal nutrient requirements
- Technologies: Python

### Graph representation

- Using python D3 library to represent graph
- Technologies: Python, Django

## Experience

### VegaIT SIGMA d.o.o

- Full stack developer internship
- Technologies: Java (Spring Boot), React
- July - August 2022
